Head lice:

They are back and in school. Firstly, and again, I must apologise to all the parents who check their children's hair regularly and thoroughly.

It is a problem that all schools have, particularly for the younger children, where they work much closer together. **It becomes really obvious when children are collecting the head lice themselves in the classroom!**

The only way we can get rid of the little beasts is if we all work together and check our children's hair regularly, at least once a week. When they're about... then we must check every night. **If we don't check and ignore it, then it is neglect and becomes a safeguarding issue... Thank you... together, we can get rid of them!**

Resource for Year 6 - Moving on Up

The transition from Y6 to Y7 is an exciting and daunting one. Arguably the online risks and issues become greater as technology use increases and the child moves into their adolescent years. Childnet have created a number of free resources which can be used by parents to help with this transition.

Videos include:

- Marvin wants a phone.
- Joel's dilemma about friend requests.
- Isla sees online bullying.

You can view the resources [HERE](#).
